

# PQS 2013

## The Fourth International Workshop on Perceptual Quality of Systems

Place: Kardinal König Haus, Vienna, Austria

Date: September 2-4<sup>th</sup> 2013

This 2 ½ day workshop aims to bring together researchers from various fields and communities that are all related to perceptual quality. It will serve as a forum facilitating an interdisciplinary exchange of ideas between both academic and industrial researchers working on different aspects of perceptual quality of systems.

Contributions should address methodological aspects of quality and usability assessment and evaluation, the underlying perception and judgment processes involved, or the user perceived quality of particular technologies, systems or services. Suggested topics are:

- Methodologies and Methods of Quality Assessment and Evaluation
- Metrology: Test Design and Scaling
- Quality of Speech, Audio and Music
- Quality of Images and Video
- Quality of Haptics
- Quality of Multimodal and Multi-sensory Perception
- Perceptual Quality vs. Quality of Experience vs. User Experience vs. Usability
- Semio-Acoustics and -Perception
- Quality Engineering Processes
- Quality and Usability of Interactive Multimedia Services

**Tentative Submission Deadline: 31.3.2013**
